Introduction

The TEMPUR® Difference

Outstanding Comfort and Support

Once you have slept on a TEMPUR® mattress and pillow, you realise there is no comparison. The TEMPUR® temperature-sensitive material conforms to the exact shape of your body. It reduces the discomfort caused by pressure points by redistributing pressure so you can immediately relax into your most comfortable sleeping position and remain there fully supported. It is this balance of outstanding comfort and support that has earned TEMPUR® a number one ranking for ‘overall customer satisfaction’ and ‘overall quality of sleep’ in each of 13 countries surveyed*

Feel Weightless

At TEMPUR® we believe that whatever your shape, size or age, your mattress should contour to the unique shape of your body, and not the other way around. That is why we have a range of mattresses and pillows, to give you the personalised support you need while you sleep. With the help of your local store, we encourage you to test our products and let your body decide. We believe that with our innovative sleep technology, all you’ll feel is weightless.

The findings are based on interviews with over 1300 TEMPUR® mattress owners in 13 European countries (Austria, Denmark, Finland, France, Germany, The Netherlands and Belgium, Italy, Norway, Sweden, Spain, Switzerland and the UK) and the percentages and average number of recommendations recorded are high in each country but not identical.

Support where you need it

Ordinary spring mattresses can cause unnatural sleeping positions and pressure resulting in numbness and discomfort.
TEMPUR® Mattress Collections, a perfect fit for every body

All TEMPUR mattresses work in the same way, conforming to the shape of your body to allow you to find your most comfortable position for your best night’s sleep. With our three mattress collections and two types of pillows, we make a range to suit every body.

We have three mattress collections:

- **Original**
  - For a firmer, supportive feel

- **Cloud**
  - For a softer, supportive feel

- **Sensation**
  - Traditional feel with easy movement

The TEMPUR material redistributes your body weight and reduces pressure points that on conventional mattresses can lead to numbness and the need to toss and turn. In addition, the properties of TEMPUR material mean that partners are less disturbed by each other’s movements and can enjoy a better night’s sleep.

With three different feels across our three collections, the best way to find your perfect mattress is to test them at your local store and let your body decide.
4 Steps to your best night’s sleep

TEMPUR® is not just about being able to sleep on a great mattress, it is also about enjoying the perfect sleep experience and designing a solution that complements your bedroom style. Your ideal TEMPUR bed includes four key elements.

1. **Mattress selection**

   The mattress is the most influential factor in determining whether you are comfortably supported at night. As sleeping well is essential for your health and wellbeing, it is important to invest in a good quality mattress that offers the comfort and support that you need. TEMPUR® offers a wide range of mattresses with different comfort feels and features, all of which offer superior TEMPUR support. To discover which mattress suits you best, try them out for yourself at a store near you.

2. **Pillow choice**

   A good pillow that properly supports your head and neck in a comfortable position is vital to enjoy your best night’s sleep. Review the wide selection of TEMPUR pillows and discover how the various shapes, feels and styles suit different needs and sleep positions.

3. **Bed Frame design**

   The Bed Frame is the component that ultimately determines how your bed looks in your room. TEMPUR Bed Frames come in a range of styles and colours to complement your bedroom. Each is constructed using high quality materials and wear-resistant fabrics.

4. **Bed Base options**

   A quality Bed Base can boost the durability and ventilation of your mattress. When selecting a Bed Base consider which features are important to you. Adjustable models make it easy to read and watch TV in bed, or raise tired legs to lie or sit more comfortably. For the ultimate in relaxation, consider adding features like a massage unit to your Bed Base.
Introducing TEMPUR® Breeze™
Comfort and freshness for a great night’s sleep

TEMPUR® high performance sleep technology continues in 2014 with our latest innovation.

TEMPUR Breeze mattresses feature new proprietary TEMPUR Climate Material™ and a unique cover created to wick away excess moisture. By reducing relative humidity and promoting airflow, Breeze optimises the micro-climate to help you to feel cooler when you sleep.

Breeze models are available in Original, Sensation and Cloud collections in 22cm and 27cm heights so that you can find the right mattress for your comfort.
Introduction

The science: How TEMPUR® Breeze™ works

How it works

Breeze mattresses feature TEMPUR Climate Material™ or TCM in the core combined with a 3D cover to help manage the micro-climate around you as you sleep. Any humidity is able to pass easily through the 3D cover and away from the body. Then a layer of TCM with thick open cell walls allows faster and more efficient moisture movement and breathability through the material leaving you with the sensation of sleeping cooler and more comfortably.

Tempur® Breeze™ performed exceptionally in independent relative humidity testing. Lower relative humidity helps you sleep drier and therefore feel cooler.

Relative humidity

- TEMPUR® Sensation Breeze™: 50%
- Diamona Medicontur Royal: 60%
- Dormeo Octaspring 5500: 64%
- Bultex Kioma: 60%

In-home testing 59% of those surveyed ranked the Breeze mattress as ‘very good’ or ‘extremely good’. 58% said it was the ideal temperature, neither too hot nor too cold.

TEMPUR® Mattress Collections

A supportive, firmer feel

The TEMPUR material was originally developed by NASA to relieve the pressure experienced by astronauts during lift off. It is these pressure relieving qualities which provide the core benefits of a TEMPUR Original Mattress – outstanding comfort and support, with a firmer feel.

A supportive, softer feel

The TEMPUR Cloud Mattress Collection offers an innovative balance of softness and support. It combines the unique TEMPUR material with a newly developed, softer, comfort layer for a feeling of instant weightless relaxation.

For support and easy movement

The TEMPUR Sensation Mattress Collection provides the familiar feel of a traditional spring mattress combined with the amazing comfort and support of TEMPUR. All mattresses in this collection have a specially cut, durable base layer for a more traditional feel.

Trusted Results and Dependable Quality

TEMPUR® products are recognised by experts and sleep centres worldwide for the comfort and superior support they provide. Satisfied customers also report that these products have provided comfort when suffering with back, joint and neck problems, as well as sleep difficulties. TEMPUR material is produced solely in company owned production facilities where the products are developed and tested to ensure the highest standards of quality and are all supported by a comprehensive warranty.

Maintaining a TEMPUR® mattress is easy

Thanks to the permanent memory of the TEMPUR material, the mattress will return to its original shape every time. As a result, the mattress does not require flipping or turning. The TEMPUR material is hypoallergenic, containing no commonly known allergens, and the mattress covers are antimicrobial treated to inhibit the growth of micro-organisms and improve freshness. Cover fabrics are certified to meet Oeko-Tex® 100 standards, which means that they have been tested for harmful substances, and many covers can also be easily removed for washing.
